***CATERWARE Inc. announces new versions of the
CATERPLUS™ software at CaterSource® in Las Vegas***

(Columbus, OH) – CATERWARE Inc., a leader in providing performance software to the hospitality industry, announces the newest edition of the popular CATERPLUS™ Catering & Event Management at Mike Roman's CaterSource® 2002 in Las Vegas. For the fifth year, CATERWARE has debuted it's latest version to over a thousand leading caterers at the annual educational convention.

CATERPLUS OnSite™, and CATERPLUS Classic™ offer the best in catering & event management software, focusing on bringing the most useful features to the In-house and Off-premise caterers. Designed to be powerful, yet simple and easy to implement, the newest release features an all-new interface, and enhanced abilities for customization and integration tools such as RoomViewer® by Timesaver Software, and FOOD-TRAK® by System Concepts, Inc.

Contact and task management modules are built-in, allowing complete organization of schedules, appointments, reminders, and workgroup management in network environments. These new features along with reliable back-office and sales process automation make it a requirement for any catering & sales operation seeking to improve it's efficiency.

Michael Roman has become the nation's leading educator for the catering industry. Mike travels more than 100,000 air miles a year, providing marketing assistance and business. Mike is presently the President of CaterSource®, Inc. which is a consulting, seminar, and publishing business helping all types of food service business achieve better profitability.

CATERWARE Inc. was founded in 1995 upon the core strengths of catering industry knowledge and experience, and software development. The company's primary focus is understanding the challenges and needs of a catering business, and translating those needs into state-of-the-art products and services for the industry. The comprehensive features of CATERPLUS Catering and Event Management software deliver the benefits of improved efficiency, profitability and customer service for today's successful operation.
